Fellows’ Projects

Toward the end of the first year, each Fellow, in conjunction with his/her nominator/mentor, will identify a project of import to the unit or the broader campus. These projects are intended to provide a context for applying and furthering the development of leadership competencies, while contributing meaningfully to address significant needs of the institution. Work on projects will begin in the second year of the program.

Typically, the nominator will serve as a project mentor. However, a nominator and mentor need not be the same person. Designation of a project mentor will be required toward the end of the first year at the time the Fellow’s project is identified. Mentors must be current Rutgers employees with the ability to serve as advisors for the projects and participate in selected RLA meetings/events.
